Waseem Ul Haque Ansari

I am a graduate mechanical engineer from NED University and had completed my engineering in 1990, Completed MBA - Finance from Preston University during 1998 ~ 1999 and also a certified lead auditor of Occupational Health & safety Management Systems from SGS Pakistan (Pvt.) Ltd.

I have a diversified experience of more than 28 years in automobile industry and presently working as Chief Operating Officer in Dewan Farooque Motors Limited

I was responsible for overall vehicle assembly operation of KIA and Hyundai brand under technical license agreements.

Significantly contributed towards the implementation and real compliance of Hyundai Quality System in assembly process and received recognition of being the **"Third Best"** Car Assembly Plant out of 16 CKD plants around the world.

Implemented supply chain management techniques focusing on annual company spending, supply market, total cost analysis, identification of suitable supplies and developed sourcing criteria, by minimizing risk and cost. Successfully completed Lead Course of Occupational Health & safety Management Systems Auditors / Lead Auditor Training Course on June 2009, from SGS Pakistan (Pvt.) Ltd.
